Steel Pipe, Structural Tubing, Steel Plate and Fabrication

Centrally located in Alton, Illinois, Eagle Tubular Products has been a leading distributor of carbon steel pipe and structural tubing since opening our doors in 1998. We also manufacture the highest quality sign support structures, billboard structures, bollards & machinery guards, and athletic field shelters, pavilions, scoreboard structures and more!

We cater to a very diverse range of industries, including construction (casing, piling, bollards), sign & outdoor advertising, steel fabrication, steel service centers, steel pipe and water works supply companies, OEM, school & park departments, just to name a few.

We are committed to providing quality tubular products and on time deliveries at competitive prices. This is the formula that, through the years, has allowed us to build and maintain a very loyal customer base and hopefully the formula that will allow us to **EARN YOUR BUSINESS!**

Steel Pipe, Structural Tubing, Steel Plate and Fabrication

Carbon Steel Pipe & Tube

We maintain an extensive inventory of welded pipe through 48" and seamless pipe through 24", with walls through 1.5" in some sizes. Our pipe comes from leading domestic and import mills.

Sign Poles & Support Structures

We have supplied quality fabricated sign poles and support structures since 1998. Our knowledgeable sales staff over 100 years of combined experience in the design assistance and sales of sign poles.

Bollards, Bumper Posts & Guard Posts

We offer a wide variety of bollard products from stationary "embedded" or "plate mounted" bollards to lockable removable bollard systems, and much more.

Cutting, Fabrication & Painting Services

Saw Cutting, Miter cutting, Mechanical Torch Cutting & Beveling. Precision cutting and beveling with our mechanical track torch.

Sandblasting, primer, top coats and specialty coating also offered.

We also offer "Stocking Programs" We'll stock your products and ship them as you need them!

Billboard & Scoreboard Support Structures

We can build your billboard or scoreboard support structure with the engineering that you provide or we can have it designed and engineered based on your specific requirements. We have supplied structures that have been designed and installed for most major LED display manufacturers throughout the United States and the Caribbean.

Steel Casing, Piling, Caissons & Spuds

We have the steel pipe and service capabilities to get your project completed on time and on budget.

Sizes: 3" through 48" from our extensive stock. Larger diameter rolled and welded pipe is also available. Walls up to 1" and over are commonly available in our inventory.

Steel Netting Poles, Dugouts & Shelters

Our newest endeavor is manufacturing equipment for athletic fields and park & recreation departments such as baseball/softball dugout shelters (including the roofing), football goalposts, netting poles, scoreboard support structures and more!

A36, A572 Carbon Steel Plate

We now sell cut-to-size and fabricated carbon steel plate to many industries, including steel distributors/service centers, steel fabricators, OEM's, construction, and more! Grades we stock- A36, A572 (other grades available as needed).

Sizes we stock: 1/4" through 3".

Value Added Services

Welding Services

Our fabrication department takes great pride in going the extra mile to produce exceptional products. All welders are AWS D1.1 certified.

From the most simple fabricated pipe bollard - to the most complex sign/billboard structure, you can rely on Eagle Tubular Products to get the job done right and on time - the first time.

Painting / Priming / Special Coating Sandblasting

Eagle Tubular Products has the facilities and expertise to sandblast and paint to your specifications. If you're uncertain about which coatings would be best for your specific project, our experienced sales staff can help you select the correct products for your application.

- Water based, Oxide & Epoxy Primers
- Enamel & Epoxy Top Coats
- Bituminous coatings
- Coal Tar Epoxy
- Hot Dipped Galvanizing
- Powder Coatings

Saw Cutting / Torch Cutting Plate Cutting

Saw Cutting

We have 3 production band saws that cut through 16" OD. Miter cutting is available through 12.75" pipe and 12" square tubing. Quick turn around on saw cut orders!

Mechanical Torch Cutting & Beveling

For larger diameter pipe up to 84" OD, we offer precision cutting and beveling with our mechanical track torch.

Plate Cutting

For more efficient and accurate plate cutting, we recently added a Hypertherm HPR260XD plasma cutting system. Your plate parts can be cut using our inventory, or from plate that you provide. All parts are nested and programmed for maximum utilization of the plate. We supply to steel service centers, OEM's, construction, and much more.
